

**Service Overview:** Encourage patrons to use their social media to market your event or product by giving them something of value - discounted tickets or products after they share. (Discounts can also be for VIP Status, beverage deals, services etc.)

## Coupon Announcement

In this example, DJ B-Mellow posts about a 50% discount off tickets for an event to his fans on twitter. The posts were made 6 hours prior to the actual event.

His fans go to a mobile ready coupon page and Distro (Share) into their networks about the event or product to get their discount.

## Coupon Page

2 social posts about this last minute deal yielded 20 additional customers to the event. This made the event manager very happy and he has signed up for more coupons for upcoming events.

## FANDISTRO COUPONS

In addition to getting you patrons to market your event or product, we provide you with a link that gives you real-time updates of who is participating including their names and email addresses.

Quick, easy and rewarding marketing.
